This publication may be worth purchasing. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

Defender Publishing. Paperback. Book Condition: New. Paperback. 350 pages. How in recent years, astonishing technological developments have pushed the frontiers of humanity toward far-reaching morphological transformation that promises in the very near future to redefine what it means to be human. An international, intellectual and fast-growing cultural movement known as transhumanism intends the use of genetics, robotics, artificial intelligence and nanotechnology (GRIN technologies) as tools that will radically redesign our minds, our memories, our physiology, our offspring, and even perhaps, as Joel Garreau in his bestselling book *Radical Evolution* claims, our very souls. The technological, cultural, and metaphysical shift now under way unapologetically forecasts a future dominated by this new species of unrecognizably superior humans, and applications under study now to make this dream reality are being funded by thousands of government and private research facilities around the world. Without comprehending what is quickly approaching in related disciplines of research and development, vast numbers of believers could be paralyzed by the most fantastic and most far reaching supernatural implications. The destiny of each individual as well as the...
