Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Molecular Aspects of Biological Development This is the transcript of an informal workshop on The Molecular Aspects of Development held at the Nittany Lion Inn of The Pennsylvania State University, University Park, Pennsylvania, on July 19-21, 1965. It was organized by The Pennsylvania State University Biophysics Department under the sponsorship of the University and the National Aeronautics and Space Administration. Its purpose was to bring together scientists actively doing research in different areas of differentiation and development. Researchers from several disciplines doing work on many different biological systems were invited to give presentations of their work. These presentations were informal and discussion was invited at all times. In addition to those invited to give talks, participants were invited from many related departments at the University. A complete list of all participants is given following this preface. This conference reflects the growing interest in the problems of differentiation and development as attacked from the molecular point of view. The combined backgrounds and methods of many disciplines such as biochemistry, biophysics, cell biology, genetics, microbiology, physical...
